Summary

Andrew is an experienced web engineer who has practiced his passion for over 12 years. Self taught since highschool, I have brought my quick learning and entrepreneurial mindset to my work at several leadership positions, including start-ups and my own company.

Education

McDaniel College
B.A. Computer Science

Grad. 2015

Skills

React Ruby / Rails NodeJS GraphQL a11y

HTML / CSS Advanced SQL Data Design

Unit Testing / TDD UNIX Shell Git OSS

Project Management Leadership

Work Experience

Area2K Consulting
General Partner

2019 — present

A consulting business I formed with a business partner. We provide development resources and technical leadership to early stage start-ups. I architect and code platforms, along with managing off-shore resources.

Gravy Workforce
Lead Software Engineer

2019 — present

What began as a consulting arrangement through Area2K formed into a long-term relationship. I am coordinating a rework of their platform using modern technologies, including React and GraphQL.

Knowledge to Practice
Lead Software Engineer

2016 — 2019

Started as the principal engineer for this start-up. The first version was coded entirely by myself in Rails and React (v0.14). Went on to raise >\$5M and hire a team of engineers.

Dr. First
Software Engineer

2015 — 2016
